CAREER OBJECTIVE

Mern Developer with a strong passion for creating innovative and user-centric Websites. Leveraging a diverse skill set, including Front-End Development, Back-End Development and UI/UX design, to contribute to cutting-edge projects and deliver exceptional user experiences.

PROJECTS

Restuarant Website

(JavaScript, Html, Css, React)

- Developed the frontend for a restaurant website using React, providing a modern and user-friendly online presence for the restaurant.
- Utilized React, JavaScript, HTML, CSS, and various libraries and frameworks for UI development.
- Ensured the website was responsive, offering a seamless experience across desktop, tablet, and mobile devices.
- Designed and implemented reusable React components to enhance code maintainability and efficiency.

Swiggy Clone Website

(JavaScript, Html, Css, React, NodeJs,Express,Mangodb)

- Developed a Swiggy clone website using JavaScript, HTML, CSS, React, Node.js, Express, and MongoDB.
- Implemented a responsive user interface with React for seamless user experience across devices.
- Created a backend server with Node.js and Express, integrating MongoDB for database management.
- Incorporated features such as user authentication, restaurant listings, menu display, ordering functionality, and order tracking to emulate the Swiggy platform's core functionalities.

Profolio Website

(Html, Css, Javascript, BootStrap)

- Created a dynamic and responsive portfolio website using Html, Css, Javascript and BootStrap
- Designed with modern principles like clean layouts, bold typography, and high-quality imagery.
- Utilized CSS media queries for responsive layouts across various devices.
